PROFILE

A motivated and tech-savvy Computer Science Engineering student in the 7th semester, with a strong foundation in programming, data structures, and web development. Eager to apply academic knowledge in real-world projects and gain practical experience through internships or entry-level roles in the tech industry.

EDUCATION

Govt. College Dharmshala | 2024-2026

B.Tech in Computer Science Engineering

Currently pursuing 7th semester of B.Tech with a strong academic foundation in core computer science subjects. Focused on improving software development skills, data structures, algorithms, and practical applications through real-world projects and academic coursework.

Govt. Polytechnic Sunder Nagar | 2020-2023

Diploma in Computer Science Engineering

Completed a 3-year diploma program with solid grounding in programming fundamentals, database systems, and object-oriented design. Gained hands-on experience in building small applications and participating in technical labs and group projects.

PROJECTS

Smart Attendance System Using QR Code

Built a QR code-based Smart Attendance System using the MERN stack (MongoDB, Express.js, React, Node.js). The system allows secure and real-time attendance tracking through dynamic QR code generation and scanning, along with admin access for authentication and record monitoring.

Visualization of Data Structures and Algorithms

Developing an interactive web application using the MERN stack to visualize data structures and algorithms with step-by-step animations, recursion tree representation, and real-time execution flow. Focused on creating an intuitive, educational, and user-friendly interface.

TECHNICAL SKILLS

- React
- Node.js
- MongoDB
- Tailwind
- Express.js

SOFT SKILLS

- Problem-solving
- Communication
- Time management
- Self-Motivation
- Adaptability
